

# plan

**Brand new 1500sq ft studio for hire in the heart of Blackpool.**

- Huge L shaped cove
- All facilities
- Available 24/7
- Profoto equipment for hire

Our studio has 12 feet high ceilings, a huge cove, with a polished concrete floor and great facilities.

Brand new luxury kitchen including oven, breakout area with flat screen TV, dining table and chairs, changing room with full bathroom, ladies and gents bathrooms, two separate hair and make up areas and an Airstream bluetooth sound system so you can hook up your music whilst shooting.

The large open studio space is large enough for set builds, driving in motorbikes and can be used 24 hours a day if necessary.

Our L shaped cove is painted flat white but can be painted Chroma key green if required for shooting films and music videos etc.

We are effectively a black out studio, we do have windows that open onto the street but they are opaque with film for your privacy.

We also carry Colorama, if you require a specific colour, give us notice and we will ensure its here for you.
